SOCIAL CALL PROGRAM

We believe simple actions can make a huge difference.
Volunteer today or refer someone who may be in need.

A simple phone call can make someone’s day!

BE THE ONE
We need you.
Regular interactions have been proven to foster a sense of well-being and even improve physical health. You have the power to help.

MAKE THE CALL
A friendly phone call from you can make all the difference in someone’s day or even week. We will teach you how to share your stories and experiences with participants and how to listen to someone tell you about theirs.
